Ilene Shapiro, Executive

2020 - 2021

Understanding career pathway options - whether you are in a particular industry already or exploring which one to enter - can be very helpful for career planning. Career pathway diagrams illustrate the occupations and industry-wide pathways available within a particular sector. This can be an invaluable help for both job seekers and workers as they consider how to advance in or choose a career. This guide will provide career pathways in five industries key to Summit County's local economy: **Health Care; Biotechnology, Life, and Polymer Sciences; Information Technology; Finance, Insurance and Real Estate; Advanced Manufacturing** and **Skilled Trades**. For each industry, you'll learn about current trends, average wages, and typical career pathways.

For more information on additional career services, please contact: OhioMeansJobsSummitCounty, 1040 East Tallmadge Avenue, Akron, Ohio 44310, 330-633-1050, OhioMeansJobs.com/Summit.

Factoids

- In the coming years, **85%** of new jobs will require more than a high school diploma or GED.
- In the coming years, positions requiring non-skilled labor will only make up between **2% and 12%** of all available jobs.
- **98%** of all jobs will require at least a high school diploma or GED.

Resources for Education and Career Planning

- 1. OhioMeansJobsSummitCounty:** OhioMeansJobs.com/Summit -- OhioMeansJobsSummitCounty is Summit County's one-stop job service center. Visitors have free access to internet accessible computers, copiers, and fax machines in the Resource Room, attend basic computer training and other skills training courses, and register for the state-wide job matching system to be notified of job openings in their interest areas.
- 2. Akron-Summit County Public Library:** <https://www.akronlibrary.org/locations/main-library/business-government-division/job-resources> --The Business & Government Division can help you with your career planning or job search. - 7. Bureau of Labor Statistics, Wage Data:** <https://www.bls.gov/home.htm> -- A resource which includes recent salary survey data and short descriptions for hundreds of occupational categories. Users can view wages on a national, state, or local level. To visit the Akron Metropolitan Statistical Area (MSA) wage data page, please see: https://www.bls.gov/regions/midwest/oh_akron_msa.htm.
- 8. Career One-Stop:** <http://www.careeronestop.org> -- Sponsored by the U.S. Department of Labor, this site contains tools to help job seekers, students, businesses, and career professionals.
- 9. O*Net Online:** <http://www.onetcenter.org/> -- A nation-wide career exploration resource, the O*Net database contains information about hundreds of occupations, including job tasks, education requirements, and wages.

Wages in different industries and companies change at different times throughout the year. There is always a lag between published wages and actual wages. In addition, in some of the emerging professions described in this booklet, published wage information is not yet available. Please consider the wage information as a guide. More current wage information is always part of the employment interview and selection process.

A wide range of certificates and degrees are offered by the many community and technical colleges located throughout Northeast Ohio. To locate a college near you and learn more about the programs available, visit the National Center on Education Statistics' *College Navigator* webpage, or [50States.com](http://www.50states.com/college/) at <http://www.50states.com/college/>. Nationally recognized industry certifications can increase your wage potential and in some cases equal college credit. Choose a training program that includes at least one industry credential.

Also, the public workforce system, comprised of organizations located at the OhioMeans Jobs Summit County is ready and willing to help job seekers determine if training would be a beneficial pathway to employment.

For a list of over 900 registered apprenticeship programs in Ohio, go to: <http://jfs.ohio.gov/apprenticeship>, or visit the Apprenticeship Sponsors Database at <http://oa.doleta.gov/> to locate an apprenticeship program near you.

Health Care

Expected Employability and/or Soft Skills

Integrity, Work Ethic, Communicator, Adaptor, Critical Thinker, Dependable

Trends

Health care has become one of the most important employment sectors in Summit County. Healthcare practitioners, technical, and healthcare support occupations employed 34,000 people in Summit County in 2016, accounting for 10.3% of all employed workers in the Akron Metropolitan Statistical Area (Akron MSA, which includes both Summit and Portage Counties).

Job growth in health care occupations continues to rise despite the recent economic recession. Estimates show that combined healthcare practitioner, technical, and healthcare support occupations in Summit County are projected to increase by about 1.5% annually until 2026. Average annual wages in 2018 ranged from \$21,486 for Home Health Aides to \$208,000 for Physicians and Surgeons.

Some health care jobs will be in long-term care and care for seniors and others with special needs. Summit County has more than 250 facilities or agencies that provide some type of long-term care and across Ohio there are over 20,000 long-term care employees.

Wages

For detailed information about health care occupations including earnings opportunities, employment projections, detailed job descriptions, training schools, and other pertinent information, see the Akron Regional Hospital Association's Career Guide at:

Some Post Secondary Training (\$25k-\$45k)	Clerk Secretary	EEG Technician EMT EKG Technician Neuro Technician Sterile Supply Technician Technician	Help Desk Administrator	Dental Tech Medical Assistant	Licensed Practical Nurse		Painter
HS Diploma (\$15k-\$36k)	Billing Clerk Financial Assistant Receptionist	EKG Technician Imaging Assistant			Nursing Assistant Transportation Aide Unit Clerk	Physical Therapy Aide	Dietary Aide Housekeeping Assistant Delivery Technician

Notes:

1. Job titles are shown with minimal educational requirement; many in these fields hold advanced degrees.
2. Several titles have more than one point of entry. For example, an individual licensed to sit for the Registered Nurse boards can be qualified by virtue of graduation from an associate degree program, diploma school (less common) or a bachelor's program.
3. Several of the post secondary education titles receive their training on the job.
4. In addition to titles shown, most health care facilities require (depending on size of organization) all of the usual support functions: public relations, marketing, accounts payable, receivable, payroll, compliance, legal, human resources, etc.

Biotechnology, Life, and Polymer Sciences

Expected Employability and/or Soft Skills

Integrity, Work Ethic, Communicator, Adaptor, Critical Thinker, Dependable

Trends

Biotechnology, Life, and Polymer Sciences encompass a broad range of occupations in medical devices, materials science, chemistry, product engineering, and even genome sciences. This emerging field employed about 1,700 people in the Akron MSA in 2016, and is expected to grow by about 0.6% per year.

Job growth in biotechnology and life sciences is fueled by help from technology assistance programs like the Austen BioInnovation Institute (ABIA) in Akron and investments from the State of Ohio's Third Frontier program. Both entities are keenly aware of the region's potential as a hub for sustained and increased economic growth within the industry. ABIA is an Ohio Center of Excellence for Biomedicine and Health Care, future home of the Ohio Hub of Innovation and Opportunity for Biomaterials Commercialization and, along with its founding member, The University of Akron, winner of the prestigious U.S. Department of Commerce's 16 National Innovation Awards.

Wages

Wages in 2018 range from \$37,523 for Biological Technicians to \$73,757 for Chemists.

[Note: Wages are averages of all occupations within the sector – including entry level and high level positions.]

For detailed information about occupations within this sector (e.g. current wage ranges per occupation, training schools, employment projections, and a link to jobs listed on the Labor Market Information website):

Career Paths in Biotechnology, Life, Polymer Sciences, and Advanced Materials

Information Technology

Expected Employability and/or Soft Skills

Integrity, Work Ethic, Communicator, Adaptor, Critical Thinker, Dependable

Trends

Core technology skills are an increasingly critical skill set for a broad spectrum of occupations and industry sectors, not just those traditionally associated with computers and high technology. Examples of some current in-demand jobs in the Akron MSA include database administrators, network administrators, software engineers, and computer programmers.

About 7,700 people were employed in information technology jobs in the Akron MSA as of 2016; a number that is expected to grow an average of 1.1% per year through 2026. These jobs will be based in a wide variety of companies: small technology consultancies, large employers, educational institutions, and even transportation companies.

Wages

The average annual wage for the broad job-related category, Computer and Mathematical operations, was \$72,400 in 2018. Wages range from \$42,370 for Computer User Support Specialists to \$84,968 (for Software Developers) and \$84,906 (for Computer Systems Analysts).

[Note: Wages are averages of all occupations within the sector – including entry level and high level positions.]

Top Information Technology Jobs in the Akron MSA (ranked by total employment)

Occupation	Total Employment	Average Annual Wage
Software Developers, Applications	1,841	\$84,968
Computer Systems Analysts	1,296	\$84,906

Skilled Trades

Expected Employability and/or Soft Skills

Integrity, Work Ethic, Communicator, Adaptor, Critical Thinker, Dependable

Trends

Skilled trades (which include construction, extraction, installation, maintenance, and repair-related occupations), accounted for 23,370 employees or about 7.4% of Summit County's combined total employment in 2016.

Occupations associated with skilled trades are projected to grow faster than the total employment in Summit County. Total employment projected is expected to grow by an average of 0.5% per year by 2026, while jobs related to construction and extraction occupations are projected to grow by 1.0% per year by 2026. Installation, maintenance, and repair occupations are expected to decline by 0.1% per year by 2026.

Wages

The average annual wage in Summit County for construction and extraction jobs through 2018 was \$51,630 while the average annual wage for installation, maintenance, and repair jobs was \$48,000. Earnings range from \$74,693 for Electrical Power-Line Installers and Repairers to \$24,814 for Tire Repairers and Changers.

[Note: Wages are averages of all occupations within the sector – including entry level and high level positions.]

Education is the Ticket to Higher Salaries

The chart presented in blue below shows what the median earnings are for each education level. The chart presented in red shows what the unemployment rate is for people with that level of education. Those without even a high school diploma or the equivalent make less than one-third what someone with a graduate or professional degree makes.

At the same time, those without even a high school diploma or the equivalent are nearly 7 times more likely to be unemployed than someone with a 4-year degree or more.

Summit County's 25 Occupations With the Most Annual Job Openings 2016-2026
